STOCKS and BONDS

STOCK MARKET

NEW YORK, Dec. 10.--The stock market was feverishly irregular and heavy again today. Prices of many prominent shares recording new low levels for the year, though showing surprising rallying power in the later dealings. Shorts were extremely aggressive, extending their operations to more representative issues in the railroad division where gross declines of 1 to almost 5 points accelerated the renewed depression in industrials and specialties.

LIQUIDATION OF THE INVESTMENT

transportations gave rise to much gossip and rumor affecting the financial standing of various professional interests, but in well informed quarters selling of these stocks was regarded as in the nature of a belated cleaning up of bull pools.

Further light was thrown on the

backward conditions in the steel industry by the November statement of the United States Steel Corporation, which disclosed a decrease in unfilled orders of \$15,000,000, far exceeding all forecasts.

This draws the bookings of the

steel corporation down to the lowest aggregate of the year, but leaves the total at slightly over 9,000,000 tons, as against little more than 7,000,000 tons in the same period last year.

United States Steel was the most

active feature of the session, fluctuating within a range of one point and gaining a fraction at the end. Mexican Petroleum replaced an early setback of almost 2 points with a net advance of 5 1/2 points and recovers in other leaders ran from 1 to 3 points. Sales \$150,000 shares.

The money market retained all its

recent firmness, but foreign exchange was variable, rates to eastern Europe notably Greece and also to China again breaking sharply. The Oriental rate responding to another low record for silver in London.

Convertible issues were the weak-

est features of the bond market, especially Southern Pacific, lives which sold under par. Other issues, domestic and foreign, were irregular. Total sales (par value) aggregated \$13,275,000. Old United States bonds were unchanged on call.
